GeoListen, LLC

GeoListen, LLC is the creator of the GeoListen mobile game app, a first-of-its-kind music-listening geography puzzle for education, research, and entertainment. GeoListen aims to increase knowledge of global geography via music, one of the most distinctive and important products of any culture.

At the same time, GeoListen will drive listener traffic to under-represented artists around world, via their streaming service of choice.

management
expertise

Ngan Ngyen, Technical Lead
Web version development,
coding, SE Asian language
implementation, and
overall UI/UX gameplay

GeoListen's MVP launch in early 2026 will be followed by Phase 2 in late Spring 2026. Phase 2 will include features for classroom educators, with a focus on "sticky" learning and collaboration.

Subsequent releases will offer continent-specific versions of the game, as well as a "quest" mechanic for cumulative play that enhances both personal challenge and inter-player competition.

GeoListen aims to become a major presence in the geography puzzle and global streaming app markets, introducing thousands to the excitement of learning and the thrill of a new area of mastery.
